#### THE CENTENARY OF WATERLOO.

The Brussels correspondent of The Times, writing on January 20, says that the committee which has been formed under the presidency of General Baron de Heusch to arrange for the celebration, on June 18 1915, of the centenary of the Battle of Waterloo, has decided on the construction of a mansoleum at Plancencit or Brains T'Alleud. The memorial, according to a design which is to be submitted for final decision to a council of British, German, Dutch, French and Belgian artists, will consist of a mass of dark perphyry on which the principal group, carved in white marble, will stand out in relief, with bronze figures round it representing the various nations. All the bones found on the field of battle will be laid within this mausoleum, which will thus in a measure become the tomb of all who fell at Waterloo. Nothing as yet has been so tled with regard to the ceremony which will take place, but committees will be appointed in London, Berlin, Paris and The Hague.

Mr Bandmann's New Opera Company nearly 70 strong, is opening at Singapore on March 9. The company, is producing several new pieces including The Count of Luxembourg, the Gaiety Theatre success, Peggie, and the successor to the musical comedy The Arcadians, entitled The Mousme. Another innovation will be the presentation of a new romantic opera The King's Brids. This piece is being presented in London shortly. It was given a trial at the Kennington Theatre and Miss-Florence Beech, who, our readers will be pleased to hear, is returning to the Bandmann fold had the distinction of creating the principal role. Mr Bandmann witnessed the per formance and was so pleased with the piece that he obtained the Bastern rights. In addition to these proces the company will give The Chocolate Soldier. The Balkan Princess, The Quaker Girl, The Dollar Princess, The Waltz Dream, The Merry Widow and the world famed Bloradors supervised by Mr Bandmann who is travelling with the company.

SCOTISH LETTER.

(From Our Own Correspondent.) EDINEUROR, PERRULEY O A GREAT BOYSTEEL

Not for two years has the frost he sufficiently long to permit of the Bouspiel between the curious of the North and South five mobes of ice on Carachreck, and 2000 members of the Reyal Caledonian Club for ga bered on the pond at the foot of the

Ochila. The keenness of the ice was thought being made to have it submitted to to be in favour of the Northerners; the artitration. Southerners are understood to be at their best with a "bauch," or rougher ice Again, however, the men from the Lowlands Havner one or two school bowlets bo had the victory, with a majority of 430 points rather a disappointment, for North have not web the match since 1880. A DEMOCRATIC GAME.

As a game, curling is fostered as something peculiarly Scottish; its great Bonspiel is not an occasion, it is a national natitution Being Scottish, it is essentially democratic, and Carsebreck once more showed that the ice is a leveller another sense than that realised by immertal Mr. Winkle. - A Lord played time about with a ploughman, a beadle skipped " his minister, a blacksmith partnered a farmer. Strength as well as skill is required to send the 40 or 45 lb. "Crawfordjohn" or "Aialas Craig" from the mampes to the tee. In the exhibitat ing exercise all social distinctions are quickly forgotten. When delivering the stone or "soopin' her up" the laird and the linu are on equal terms and cheered or damned with the finest impartiality.

CUBLING IN CANADA AND SWITERLAND.

The Scottish curlers have done fairly well in Canada, when one considers the little practice they get compared with the natives. There is a covered rink in Glasgow, and another has just been construct d in Edin' urgh; but few men can ifford such luxuries, and opportunities for open-air play are far between. 1 Switzerland the Scots are doing better they are retaining all the honours of the game. The M Geoch brothers, who hall Allahabad, is of opinion that for the from north of the Tweed, carried off the linture history of humanity and of the world, International Curling Bouspiel Cup Kandersteg for the third time, thus permanently securing the trophy for the Manchester Caledonian Club.

LADY CURLERS.

The appearance of a lady curler at Carsebreck recalls a match which was played between married and single women Buittle, in Galloway, so long ago as 1841, Both teams were skipped by men. game was carried out," we are told, "with the determination peculial to the sex, and resulted in the defeat of the married party who declared that there had been treachery in their camp. That they had some ground for the suspicion was proved by the fact that not long afterwards the skip of the married ladies was united to a young widow who had played on the unmarried the COMPANY'S OFFICE, St. George's side, and had cast sheep's eyes over the hogscore all the time of the match."

LITERATURE OF THE ROADIN GAME. Carling, like golf, has a literature of its own. Strange to say, Robert Burns wrote wery few verses about "the rossin game." The most famous are in the . Elegy to Tam

Samson."-When winter muffles up his closk And binds the mire like a rock

When to the loughs the curiers flock Wi gleesome speed.
Wha will they station at the cock.
Tam Samson's dead.

### EECOMMENT.

Dear Siz - I am in the teaching profession, and whenever I get run down! I find Angler's Emulsion is the sweet pick-me-up. It was recommended me by my doctor to get back my strength after a severe Illness, and its effect was musvellous. I have taken it at intervals for several years, always, deriving, real and substantial benefit. When an attack of bronchitis comes on I seldom have to take many closes. before I find sure relief. I feel I cannot too highly praise its merits, not the least of which is its pleasant taste, and you may be sure that I shall recommend it to all my friends. (Sd.) (Miss) K. PLUMSTEAD.

PLEASANT TO TAKE. AIDS DIGESTION.

Angier's Empision is different and superior to all other emulsions because it combines the remarkable healing properties of our special petroleum with the tonic and strengthening qualities of the hypophosphites. Soothing to throat, lungs, stomach and intestines, a great aid to digestion and a splendid tonic and builder, it is invaluable in lung affections. digestive disorders, "run-down conditions and in all wasting diseases. Angier's Emulsion is pleasant to take and agrees perfectly with delicate stemache. It is good for all ages.

#### CHINA MAKING PROGRESS IN ALTRUISM.

One of the most encouraging things about the work of famine relief in China is the change in the attitude of the people themselves. Ten or fifteen years ago the officials actually opposed the work of relief, and put out. Billiards, ennis, ground, putting all worts of d fliculties in the way of those who were carrying on the work. There have been many cases of those who were utterly indifferent to the sufferings of the people, and who eared only for their own

At present, conditions are far from ideal, but the progress made has been tremendous. Now, there are many officials who take 289 an active part in famine relief, and large. numbers of the local gentry take a real interest in the welfare of their people. Best of all is the attitude of the new Government. The day seems to have come when the governme t will take upon itself the roup nsibility for the selief, and final prevention of famine.

Meanwhile help is needed this year. No matter low much the government is able to do, there will be need for all the money that Foreigners can give. Contributions may be sent to H. C. Gulland, Ecq., Manager of the International Banking Corporation, Trossurer of Central China Famine Relief Committee in Shanghai.

#### EARLY MARRIAGES:

WEALTH AND MATRIMONY IN THE NAVY The Noval and Military Record has raised somewhat curious question in connection. with the arge number of early marriages New Insurance Paid for ... £ 25,687,500 Flintshere, L. London Feb. 17. argues that this is due to the recent influx Hongkong, February 29, 1912; . . . 290 into the navy of the sons of rich men, and questions whether this is to the advantage Dividends to Policyholders of efficiency. It is rather strange, writes the naval correspondent of The Standard that the subject has not come upon the tapis before, the more so as at least one lower deck malcontent recently stated in print that the root of much present-day discontent is the substitution of the plate-

crat officer for the poor aristocrat There is certainly no denying that luxury has increased affeat during the last two decades. wir example, 20 years ago ward. room lunchioon consisted of whatever was left over from the previous night's dinner cold; to-day hot luncheon, in the style of the best hotels, is the rule. This, however, has not been accompanied by any particular increase of expenditure; nor except in the submarine service is ex

penditure on the lines of a crack cavalry Lt is still perfectly possible for an officer in the navy to live on his pay, and, curi-1448 rather than the plutocrat, who is most

prone to indulge in early matrimony. Such, at least, is my observation of the last score or two of marriages that have come under my immediate notice, That such officers have a hard life of it goes without saying while few will be found to 'ar up that the young married officer in advantageous to the many His lamily tion cot him adrift from many things where the ship is in lurbour, and a umher of wives coming on board is rarely appro- respect of each other. THE WORK OF WEALTHY OFFICERS, The wealthy officer is, of course, an in-

the attack."

This urgent advice is given by physicians every day, in every civilised country, to sufferers from Nervous Debility, Brain dag, Lack of Vitality, Sleeplessness, Disordered Digestion, Poverty of Blood and various Wasting Diseases.

Physicians know that Sanatogen is a true scientific compound of organic phosphorus and pure concentrated proteid, forming a new substance which is eagerly and completely absorbed by the tissues and possesses unique tonic and reconstructive qualities.

#### The Supreme Restorative.

Physicians can speak from experience of the great recuperative effects which Sanatogen has upon the brain, nerves, blood and muscles. They have watched its revivifying action upon people whose nervous strength has been depleted by over-work, worry or disease. They have noted how Sanatogen gives lasting benefit, how it regenerates the appetite and digestion brings back the bloom to the cheek, replaces wakeful nights by sound refreshing sleep in short, enables the human machinery to perform its functions so perfectly that the patient loses his depression of spirits, gains confidence and courage, and finds life again worth living.

#### Fighting Malaria and Dysentery.

Sanatogen is of the greatest service to the physician in fighting Malaria, Dysentery and other scourges of tropical climates. On this subject, Dr. H. H. W. H., of Babugarah; United Provinces, writes :-"I have much pleasure in certifying to the

value of Sanatogen in cases of Dysentery, Enteric Fever and other exhausting diseases. I have used it regularly in my practice for the past two years. I can honestly affirm that many of my worst cases owe their recovery to Sanatogen, and I certainly consider it the best of artificial foods."

#### Try Sanatogen To-day.

At the head offices of the manufacturers of Sanstogen there are filed more than fourteen thousand letters from practising physicians who certify to the value of Sanstogen. Truly a magnificent monument to the value of this unique tonic-food 1

But no less impressive is the enthusiastic testimony of patients themselves. Thousands of well-known people in every walk of life have publicly testified to the wonderful benefits they have received from Sanatogen, and a few of their letters are reproduced here.

Begin to take Sanatogen to-day, and thus lay the foundation of new health and nerve force. You can get Sanatogen in Tientsin of Messrx, A. S. Watson & Co.; Mesars. Woollen, Vosey & Co., Rue de France; and at

Securing a ladder, he placed it against the wall and on climbing up and looking over the top he saw the figure of a man lying on the floor. The coolie made Recital at St. John's Cathedral on Tuesday post haste to inform the manager. Ta gart, of what he had seen. The door could not of course, be opened from the outside, and so Mr Taggart could only formulate any opinion of the affair for what he saw by looking down from the ladder. It was soon apparent. however, that there was a tragic commercial point of view, needs no aspect to the case, for a pool of blood was observed on the floor. Mr Taggart then sent for the engineer, who was soon on the snot and in a few minutes had forced open the door. Then the shocking discovery was made that the deceased had obviously taken his life. The police were instantly summoned, and soon after their strival they were able to identify the body as that of Mr Eberius. The remains were then

t iken to the public mortuary. The deceased was a married man, and resided in Macdonnell Road. He leaves in Hongkong a widow and our child, for whom the sympathy of the whole Colony is felt in the terrible blow which has failen on them. Though so far no circumstances have been assigned for the deed, it is stated that the deceased of late had been worrying over business affairs.

The Flower Show this year had a splendid site for its exhibition, and though the scason is backward I for one was delighted with what I saw. It is really surprising what can be done in Hongkong in the way of flowers and vegetables when a little pains and commonsense are applied to the task. Yet notwithstanding the yearly example shown us, the majority sti continue to put up with the market truck that cook brings home day by day and miscalls vegetables. Still I hope the ladies and gentlemen who so indefatigably labour to make the Flower Show a success will not weary in well doing but will continue in their painstaking efforts to let light into the crantum of the conservative Fau-wang until such time as success doth crown their

The Secretary read the notice convenng the meeting. The Chairman, after reading the auditors certificate, said: Gentlemen, -The report and accounts for the latter half of 1911 propose, with your permission, to take as read. The profit was not so large as during the same period of 1910, but I think we could hardly expect it to be otherwise considering the unsettled state of affairs in China, which, to our certain knowledge, has had the effect of diverting tourists to other routes of travel. Most of the finishing touches to the rebuilding and invoishing of the south block have been made, and your Directors look forward with confidence to a large access of revenue from this portion of the hotel. The additions and alterations that have been effected during the past few years have involved & considerable outlay of capital, but I think, gentlemen, you will agree with me that the money has been wisely spent and that the expenditure has given the Colour. for the first time in its history, a hotel apon which, in every respect, it may justly pride itself. Mr. Taggart, one newly anpointed manager, will, I feel sure, do everything in his power to maintain its renutation at a high standard. THE GOVERNMENT'S ATTITUDE. (Reuter's Service to the China Mail.)

LONDON, March L. In the course of his speech before the National Miners conference, Mr Asquith said that the Government, having re-

Some of the Radical optimists believe that the miners, pleased at the dramatic swiftness of their victory, will return to work after a brief holiday, confiding in Mr. Asquith's integrity.
